3M™ Sun Control Window Film Prestige Series
and Ultra Prestige Series

Beyond comfort.

Enhancing homes
through exceptional
protection and beauty.

Protected by 3M™ Window Film

Keeping your home cool and protected through 3M Science.

Many traditional window films that reject heat are tinted dark, use metal or are highly reflective. 3M™ Prestige Series and Ultra Prestige Series Window Films use non-metallized, multilayer optical films designed to achieve a combination of advantages other films simply can't match. Because they're non-metallic, our films don't impact window aesthetics, aren't susceptible to corrosion and don't interfere with electronic device signals.

Sun protection, safety and beauty.

When only the best will do, 3M™ Sun Control Window Film Prestige Series and 3M™ Safety & Security Window Film Ultra Prestige Series take protection and comfort to a whole new level for your family and home. Whether you choose the Prestige Series or the Ultra Prestige Series, our films leave the beauty of your home virtually unchanged.

Let the sun shine in — on your terms.

Glass windows help make your home beautiful and inviting. But sunlight can create excessive heat and expose your family and possessions to damaging ultraviolet (UV) rays.

Let in the light but keep out the heat and damaging UV rays with 3M™ Sun Control Window Film Prestige Series without impacting your home's aesthetics or your view.

Stay cool, comfortable and energy efficient.

Sunlight can dramatically increase temperatures inside your home, creating hot spots and running up your energy bill when the air conditioner tries to keep up.

3M™ Prestige Series Window Films reject up to 97%* of the sun's heat-producing infrared light and up to 60% of the heat coming through windows. The result? A cooler, more comfortable home and energy savings for you.

Keep your property looking beautiful.

Sunlight can fade fabrics, wallpaper, natural wood floors, photos, paintings and other valuables in your home. Our films are designed to reduce the effects of solar heat and visible light on furnishings and block up to 99% of the sun's UV rays — the single largest cause of fading. While no film can stop fading completely, our films dramatically slow the progress of fading.

Maintain aesthetics.

Most homeowners love the aesthetics of their homes and the views from their windows. 3M™ Prestige Series Window Films allow 40 to 70% of the natural light into your home. These films are virtually clear, so they have little or no impact on your views.

Unsurpassed sun control capabilities.

What sets our films apart is the precision with which light waves are controlled as they pass through or reflect off of hundreds of layers of film. Compared to other films, Prestige Series Window Films increase their performance at a faster rate as the sun's angle increases. That means greater protection and comfort when you need it the most.

3M

3M™ Prestige Series Window Films are tested and perform best when the sun is high at the hottest parts of the day.

Other brands

All window films are tested when the sun is perpendicular to the window.

Reduce annoying glare.

Working on a computer or watching TV in a sunlit room can be frustrating. Our films significantly reduce glare, so you can get your work done and relax without eye discomfort.

Combine the best of sun protection with safety.

Glass doors and windows are among the most vulnerable points in your home. 3M™ Scotchshield™ Safety & Security Window Film Ultra Prestige Series have a strong, multi-layered, tear-resistant construction that gives these films remarkable flexibility. While other films tear, ours stretch, so when the glass breaks, shards are held together to reduce the chance of injury or to deter crime.

Reduce potential injury and deter crime.

When accidents or natural disasters occur, Ultra Prestige Series window films are engineered to hold broken glass in place and help prevent flying shards of glass from harming your family or damaging property.

Quick entry is what most criminals count on. By helping to hold broken glass in place, our window films help deter intruders, discouraging them from entering or giving you valuable time to prepare.

The best of two worlds.

With Ultra Prestige Series window films, you get added security combined with all the sun protection benefits of 3M™ Sun Control Window Film Prestige Series.

Proven. Trusted. Guaranteed.

Proven: 3M™ Window Films resist peeling, bubbling, scratching and abrasion for long-lasting beauty and clarity. We push beyond industry standards, testing our films to extremes — subjecting them to bomb blasts and a rigorous series of durability tests, including weathering — so you can count on our films to continue performing.

Trusted: 3M earned the world's first patent for sun control window film in 1966. Today, there are millions of square feet of 3M™ Window Films installed all around the world. Combining technologies in imaginative ways, our scientists continue to develop revolutionary solutions that help keep homes and buildings comfortable and protected.

Guaranteed: When you choose 3M, you choose peace of mind. That's because 3M™ Window Films are backed by a limited lifetime warranty — one of the most comprehensive warranties you can get.

Put 3M Science to work for you.

Turn to our certified professionals. 3M™ Authorized Dealer Installers are proven experts in helping solve problems like temperature imbalances, issues with fading, excessive glare and safety and security needs.

Contact your local 3M™ Authorized Dealer Installer for a free estimate. For more information or to find a dealer installer, please call 1-866-499-8857 or visit us at 3M.com/WindowFilm.

*3M™ Prestige Series Window Films block energy across the entire IR range. The 97% rejection value is based on performance in the 900-1000 nanometers (nm) range.

Warranty and Limited Remedy: 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. **3M MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.** If the 3M product does not conform to this warranty, the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price. Limitation of Liability: Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted.
